2. Description

This material includes an awareness kit made up of a series of resources such as documents, brochures, posters, presentations, etc., with advice on different cybersecurity threats and how to act.

2.1. Origin

The material was created by INCIBE, the Spanish “National Cybersecurity institution”. It is a national organisation dependent on the Ministry of digital transformation and economic issues. It is considered as the reference entity for cybersecurity development, improvement of citizen digital trust, and academic research in that matter in Spain.

2.2. Why is it relevant/important for ESCAPE

This material is relevant because it can be used to train the company's employees on cybersecurity and best practices.

2.3. Lessons learned

- **Introduction:** The material aims to raise awareness of best practices in cybersecurity in any field.
- **Target group:**
- **Risks summary:**
 - Neglected workstation.
 - Insecure passwords.
 - Use of personal devices (bring your own device or BYOD).
 - Social media.
 - Phishing.
 - External storage devices.
- **Solutions or contingency measures:**
 - Subscription to newsletter of INCIBE.
 - Keep all systems updated on all devices.
 - Sectorial training.
- **Tips and tricks:**
 - BYOD awareness kit
