3. Description

On the platform you can find fifteen small videos that explain fifteen basic topics in the digital field (terms, risks, etc.). Linked to the platform there are many articles, games and suggestions.

3.1. Origin

The Ludoteca is a project by Registro .it to raise awareness among younger generations about how the internet works, the opportunities it offers and the risks to be aware of.

3.2. Why is it relevant/important for ESCAPE

The website is very useful for those who work with young people because the contents are many and accessible. The objectives are in fact: to spread Internet culture among the younger generations, encouraging an active and informed approach to this medium; to increase knowledge and awareness of issues surrounding Internet use among adults and teachers; to introduce innovation into schools, including teaching tools and methods.

The website also disposes of other useful tools: Classroom workshops: free and open to all Italian schools, offering a comprehensive overview of the world of the Internet; Seminars for teachers and parents; Multimedia and printed teaching materials: Internetopoli app, video game "Nabbovaldo e il ricatto dal cyberspazio" (Nabbovaldo and blackmail from cyberspace), comics, comic strips.

3.3. Lessons learned

The topics of the videos are:
Differences between the internet and the web
Domain names
What is TCP/IP?
What is Big Data?
What are Cookies?
What is the difference between Browsers and search engines?
