NO. 3

## FINAL CELEBRATION OF THE ERASMUS PROJECT ESCAPE!

The final event of the ESCAPE! project happened at the BBS Nienburg on February 5th. About 40 students from the health field joined in and learned about the cool new solutions created during the project.

The event gave a quick look at the project results and created a space for sharing ideas and inspiration.

### BBS NIENBURG

During the event, we showcased the learning environments and materials created in the ESCAPE! project, which allowed everyone to dive into hands-on learning about cybersecurity and engaging teaching methods in vocational training for nursing. It was also a great opportunity to share information about the project results and explore new ways of teaching in the nursing field.

## Preparing healthcare professionals for cyberattacks
